

## GDM-906X Series

## 6 1/2 Digit Dual Measurement Multimeter

## FEATURES

- 6 1/2 Digit Display: 1,200,000 Counts
- 4.3" TFT Graphic LCD
- DCV Basic Accuracy: 0.0035\%(GDM-9061)/0.0075\%(GDM-9060)
- 12 Measurement Functions: DCV, ACV, DCI, ACI, 2-wire and 4-wire Resistance, Frequency, Period, Diode, Continuity,
Temperature and Capacitance
- Sampling Rate up to 10k SPS (GDM-9061)
- Dual Measurements to Perform Two Selected Measurement Simultaneously
- Offer Graphical Capabilities Including Histogram, Bar Meter and Trend
- Temperature Measurement Support RTD, Thermistor as Well as Thermocouple
- Standard Interface: USB Host/Device,RS-232C,LAN,Digital I/O
- Optional Interface: GPIB

Simply Reliable

GW Instek launches GDM-906X series $61 / 2$ digit dual measurement multimeter ( 2 models: GDM-9061 and GDM-9060), featuring high precision DC voltage accuracy, fast sampling rate, 12 measurement functions ( $D C$ voltage/current, $A C$ voltage/current, 2-wire/4-wire resistance, frequency, period, diode, continuity beeper, temperature, capacitance), 6 mathematical functions (dB/dBm/Compare/ $\mathrm{MX}+\mathrm{B} /$ Percent and $\mathrm{I} / \mathrm{X}$ ) as well as a variety of communications interfaces (USB device/host, RS-232C, LAN, digital I/O and optional GPIB) to provide comprehensive measurement capabilities, higher speed and accuracy.

The series adopts a 4.3-inch TFT graphical display and a fast sampling rate (GDM-9061: 10k/s, GDM-9060: $1 \mathrm{k} / \mathrm{s}$ max.). In addition to the conventional digital display, displays can be collocated with bar meter, trend chart or histogram to make the panoramic view of the entire measurement process more completely and quickly presented. At the same time, the internal memory capacity (GDM-9061: 100k, GDM-9060: 10k) can simultaneously facilitate the trend plot or histogram measurement process and perform statistical calculations to simplify the complex trend analysis.

For user-friendly, the GDM-906X series incorporates some ingenious operational ideas, such as numeric soft keys for settings that require numerical input, upper/lower limits, LAN IP operational interfaces or messages, and multiple languages (English / Traditional Chinese/ Simplified Chinese/ Japanese / Korean) to shorten the operational and learning time of the meter.

For ATS measurement or remote control applications, the GDM-906X series provides GPIB (option can be installed at customer site) other than standard communications interfaces: USB, RS-232 and LAN. With respect to software supports, the GDM-906X series provides DMM-Viewer2 to assist users in observing or recording the data from the measurement process. In addition, LabVIEW driver is also provided to facilitate the program requirements of different system integrations.

## PANEL INTRODUCTION

## A. IDEAL BENCHTOP PARTNER

|  | GDM-9061 | GDM-9060 |
| :---: | :---: | :---: |
| DCV Accuracy | 0.0035\% | 0.0075\% |
| Sampling Rate | 10k/sec | 1k/sec |
| Memory | 100k | 10k |
| Rear Input | Yes | No |
| Current Terminal (Front) | 3A, 10A | 3A |
| Current Terminal (Rear) | 3A | - |
| Display | Number, Trend Chart, Bar Meter, Histogram |  |
| Function | Voltage/Current: AC, DC <br> Resistance: 2-Wire, 4-Wire Diode, Continuity, <br> Temperature Frequency, Period, Capacitance |  |
| Math. | REL, dB, dBm, Compare, MX+B, Percent, 1/X |  |
| STAT. | Min/Max/Average/ P-P, STDEV |  |
| Interface | RS-232C, USB Host/Device, LAN |  |

The GDM-906X series provides all fundamental measurement functions engineers require to design, develop, and test electronic circuits or products, including voltage, current, resistance, diode, and continuity beeper, frequency, temperature and capacitance. In addition, the series also features mathematical functions ( $\mathrm{dB}, \mathrm{dBm}$, Compare, $M X+B, 1 / X$ and Percent), statistical functions (Min/Max/Average/P-P/STDEV), and a variety of standard communications interfaces. The series can meet specific measurement requirements and complex measurement applications whether for the benchtop operation or to be installed in the system.
B. DIVERSE DISPLAY MODE

In addition to the standard numeric display mode, it also provides a variety of graphical functions such as bar meter, trend chart and histogram, so that the measurement results are no longer just a series of numbers, but a swift insight into the panoramic measurement.

## D. HIGH MEASUREMENT RESOLUTION AND HIGH SAMPLING RATE

| GDM-9061 MEASUREMENT TYPE ~ DCV/DCI/2W/4W |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Refresh Rate Available |  |  |  |  |  |  |  |  |  |
| 61/2 Resolution |  |  |  | 51/2 Resolution |  |  | 41⁄2 Resolution |  |  |
| 5/s | 20/s | 60/s | 100/s | 400/s | 1.2k/s | $2.4 \mathrm{k} / \mathrm{s}$ | 4.8k/s | $7.2 \mathrm{k} / \mathrm{s}$ | 10k/s |

| GDM-9060 MEASUREMENT TYPE ~ DCV/DCI/2W/4W |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Refresh Rate Available |  |  |  |  |  |  |  |  |  |
| 61/2 Resolution |  |  |  | 5½ Resolution |  |  | 4½ Resolution |  |  |
| 5/s | 20/s | 60/s | 100/s | 400/s | 1k/s | - | - | - | - |

The GDM-906X series provides high resolution of $0.1 \mu \mathrm{~V}$ for voltage measurement, 100 pA for current measurement, and $100 \mu \Omega$ for resistance measurement to meet the necessary requirements for precision measurement in specific applications. In addition, GDM-9061 is capable of achieving 10k readings per second with a display resolution of $41 / 2$ digits, while GDM-9060 achieves 1 k measurement readings per second with a display resolution of $51 / 2$ digits; such a fast sampling rate is sufficient for current measurement needs.

## F. DIVERSE COMMUNICATIONS INTERFACE AND FAST TRANSFER RATE

For system integration applications, the GDM-906X series is equipped with RS232, USB and LAN as standard communications interfaces, and GPIB is an option (can be installed by customer) to meet the requirements of different system integrations. Data transfer rate is up to 10 k readings per second (GDM-9061) or 1 k readings per second (GDM9060) via USB/LAN/GPIB interfaces.

The dual measurement function has always been a unique feature of GW Instek digital multimeters, allowing two measurement functions to be performed simultaneously and displaying the test results separately so as to greatly improve the test speed of the multi-functional measurement tasks.

## E. TEMPERATURE MEASUREMENT

The GDM-906X series conducts temperature measurement and is ideal for a variety of temperature sensors, such as thermistors, RTDs, and thermocouples. The GDM-906X's temperature measurement supports commonly used thermocouple types (e.g. J / T / K..., etc.), using voltage measurement terminals as thermocouple inputs, and calculating temperature based on voltage fluctuations; the function can be used as a temperature recorder if collocated with internal memory capacity and the trend chart function.

## G. CONVENIENT PC SOFTWARE

The PC software DMM-Viewer2 is suitable for any computer communications interfaces (RS232C/LAN/USB/ GPIB) provided by the GDM-906X series for long-term data acquisition. The software not only allows users to control the settings of the GDM-906X series but also provides the observation mode or the recording mode for the captured data. For the observation mode, the measurement result is directly presented as the result of the trend plot or the histogram and the result is not saved. For the recording mode, the measurement result is directly saved into the log file, but only the current display is shown in the process. The measured data and trend plot can be viewed after the recording mode is stopped. In addition, the GDM-906X series also provides LabVIEW driver to meet the software application requirements of system integration.
